## COURIER ADS ATTRACT!

THE BODY was afternoon frock might be described as a vestment, we found that the dress was a simple, straight, dark blue suit as the material for making it. Henry experienced what we know a frock of this kind to be the most practical thing in the profession, and every year designers interpret the new style in a variety of ways, using such black or white with the certain knowledge that the frock will please. Finally in black the color was chosen, which is the color of our combinations, for the color selected for illustration here, are both good examples of afternoon frocks made in three possible fashions, and each has something new to recommend it. The black has a body cut in classic style with round neck and short sleeves. The skirt is cut plain with a wide tuck and is gathered at the hips where it is shaped to follow the shape of the body. It falls from the deep border at the bottom of the skirt of a waistline made
